

# Walk the Loop for Children's Centres

## Walk 3: Chigwell to Havering-atte-Bower

This rural walk ended in Havering Country Park and its magical forest. Autumn leaves had fallen to the ground. It was just the right time to stop, look and wonder at their many different colours and shapes. Pictures of some of the leaves found there are below. If you have a moment, why not help identify what type of tree or plant they belong to. Enjoy!

	<p>The names of the trees and plants are written in green, but which name goes with which picture?</p>	
		
	<p>beech   birch fern   maple   hawthorn oak   sessile oak silver birch sycamore   sweet chestnut</p>
